### ***Response to Arguments***

1. Applicant's arguments filed 8/22/08 have been fully considered but they are not persuasive. In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, Webber teaches a separate backrest and seat portion of a bench or 'carriage'. It is well known and of ordinary skill in the art to divide a bench into separate parts in order to accommodate a user's comfort or increase flexibility of the user during an exercise regime. Additionally, Webber teaches newly added limitation of a tilt mechanism [column 9, line 54, element 110] for tilting the backrest relative to the seat.

### ***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
